BRUTE® CONTAINER AND LID

Heavy-duty, industrial-grade plastic container stands up to acids and most chemicals. Reinforced top rim adds strength and durability. Double-ribbed base improves stability and extends threshold for wear-through caused by dragging. Dome top lid controls odors and helps keep liners in place.

SHIPPING RATES

SG – Standard ground shipping is needed for packages with a cubic size of less than 5,184 cubic inches (See below for cubic size calculation).

DW – Dimensional weight shipping is needed for packages with a cubic size of 5,184 cubic inches or greater. Calculate cubic size by measuring package length, width, and height in inches, rounding each to the nearest whole inch. Then multiply package length by width by height to determine cubic size.

Truck – Truck only shipping is needed for packages of less than 150 lbs. with a combined length and girth over 165".
